

# Pierre's TEXUILA

## 100% BLUE AGAVE SPIRIT

Sometimes called the tequila cactus, the blue agave plant generates a premium agave nectar dripping with sweetness to create a Texas-inspired Agave Spirit. "Texuila", as we call it, is a spirit emerging from this plant grown specifically for the spirits trade in Jalisco, Mexico. We tip our hats to the Mexican farmers who grow these desert plants for more than 7 years before they mature.

## THE TASTE

A sweet and clean bold spirit that makes an unbelievable margarita. Elegant in its youth, Texuila deserves bravery in just a side of salt and lime.

40% alcohol (80 proof)

## THE MAN

Pierre de Wet, Founder of Kiepersol, believed in the adventurous light of fun times and the spirit of Texas. Unplug, just be and enjoy the moment. Salud!
